State releases county unemployment figures for June

Unemployment highest in Orange, Fayette, Washington Counties; lowest in Hamilton

INDIANAPOLIS, Ind. – Today the Indiana Department of Workforce Development released preliminary June unemployment figures for the state's 92 counties, major cities and metropolitan statistical areas. Revised figures for May were also released.

The figures, which are non-seasonally adjusted, are derived from a federally mandated formula and are based off of the state's overall unemployment rate. Indiana's preliminary non-seasonally adjusted unemployment rate from June was 4.7 percent, as reported earlier in the month.

For more information on Indiana's unemployment rate, contact the Indiana Department of Workforce Development at 1-888-WorkOne, or visit the web site at www.workforce.IN.gov.
